Prints about 400 lines in 1 h

The CHECKER **secure any document against forgery**

Modern cheque forgers use methods that make it simpler than ever to alter hand-written or type-written amounts on cheques and other documents.

D13/12 provides effective protection.

It embosses **clear and absolutely unalterable figures** into the paper. These are quite impossible to misread or overlook.

It does the job quickly. D13/12 can print about **400 lines of figures in one hour**. That's much faster than a typewriter or by hand.

D13/12 provides more than just security, efficiency and economy. Your company name is embossed on every cheque, receipt, invoice, cash voucher and all sorts of import/export documents etc.

With model D13/12 you can print a maximum of **14 different currency denominations** - as per your request.

D13/12 is accepted and utilised by banks, insurance companies, governments, trade unions and industries worldwide.
